Experience

REX **Phoenix, AZ**
Web Developer *10/2023 – Present*

- Develop a full-stack, responsive web application based on product design specifications utilizing React, JavaScript, TypeScript, Tailwind CSS, and Rails
- Model custom database schemas and RESTful APIs with Rails, Active Record, and PostgresSQL to ensure efficient data management and system performance
- Collaboratively define project scope and craft user stories based on product and design requirements, fostering stakeholder alignment and facilitating effective communication within the team

Synapse Financial Technologies **San Francisco, CA (remote)**
Software Engineer II *07/2022 – 10/2023*

- Served as team lead providing technical guidance, mentorship, and knowledge to teammates, resulting in furthered progress of technical implementations
- Implemented client direct request, quick turnaround feature enhancements in Python RESTful APIs
- Used strong troubleshooting and bug resolution abilities to quickly rectify production API issues using DataDog, EKS, and Postman
- Managed internal and external developer documentation in Confluence that provided a deeper understanding of the technical side of the products and implementations
- Provided consistent results via strong program design and management skills utilizing Jira and LucidChart
- Improved cross-team processes by providing feedback and alternative solutions to leadership, which positively impacted client experience integration changes

Freelance **Phoenix, AZ**
Web Developer & Designer *01/2018 – 07/2022*

- Served as a department facilitator in the Pulse initiative by communicating employee feedback and innovation to executives, which improved internal process and employee morale
- Regularly facilitated team meetings, resulting in an overall increase in team metrics
